## Relevant Experience

**Kiwi Company** (Full-time) · **Senior Flutter Developer**                                      *Dec· 2024 – present*

· Lead technical execution of high-impact projects, from architecture design to deployment, ensuring scalability, performance, and maintainability.
· Lead and develop software projects from planning to deployment.
· Improve system performance and optimize workflows.
· Translated design team ideas into custom and animated widgets.
· Optimize application performance and ensure responsiveness across platforms.
· Debug and resolve complex technical issues in production and testing environments.
· Facilitate knowledge-sharing sessions to improve team efficiency.

**Venley** (part time) · **Senior Flutter - React Developer**                                      *Sep · 2021 – present*

· Defined and implemented the initial flutter project configurations
· Contribute to the functionality of the application's admin panel (ReactJS).
· Transform Figma designs into high-fidelity code
· Implement Robust Solutions, Ensure Code Maintainability, Adhered to Best Practices.
· Integrated the backend with the frontend
· Deliver a high-quality user experience
· Developed web scraping solutions in Node.js to extract data from gazettes for the application.

**OneSoft** (Freelance) · **Senior Flutter Developer**                                      *Oct · 2024 - Apr 2025*

· Developed Soge Facturas App using Flutter, designed to seamlessly integrate with the company's billing software systems
· Designed intuitive UI/UX
· Built secure authentication with token-based session management
· Optimized app performance
· Implemented clean architecture with BLoC for state management
· Bluetooth printing support for physical receipts
· Analytics integration to track user workflows

**Myrad LLC** (Freelance) · **Senior Flutter Developer - Laravel**                                      *Mar · 2024 – Sep · 2024*

· Added new features to an existing codebase
· Delivered high-quality, scalable code (peer-reviewed & documented)
· Exceeded client requirements for design and functionality
· Ensured long-term code maintainability (SOLID principles, clean architecture)

**Managex Tech Solutions** (Freelance) · **Senior Flutter Developer**                                      *Apr · 2022 – May · 2023*

Worked on a personal project as a solution for several clients, an app focused on financial management for individuals as well as for small business.

· Used Dart/Flutter, BLoC for business logic, Domain Driven Design architecture, and different third-party libraries.
· Firebase for Anonymous, Google, Facebook and Email Authentication, Firestore Database and FirebaseStorage to store and retrieve data from the cloud.
· Asynchronous API calls from different providers to integrate with self solution, and use the JSON format for server communication.
· Created large custom Widgets based on client needs, following best practices on code.
· Technologies employed: Flutter Dart, Google Firebase, Networking, APIs, JSON.

**Byte x Byte** (Freelance) · **Application Developer**                                      *Oct · 2018 – Mar · 2021*

· Automated tasks that sped up the company's processes.
· Maintained and improved systems with a user-centric approach.

## Technical knowledge

| | | | | | | | |
|---|---|---|---|---|---|---|---|
| **Programming Languages** | Dart | JavaScript | TypeScript | Python | PHP | SQL | HTML | CSS |
| **Libraries & Frameworks** | Flutter | React | Tailwind | Laravel | | | |
| **Tools & Platforms** | Git | GitHub | Firebase | WordPress | Vercel | Figma | Postman |

## Skills

Mobile development          Cross-platform Apps          SCRUM          Teamwork          Attention to detail

Effective communication          Adaptability          Problem-solving

## Education

• **Coding Bootcamp** - Lexpin

• **Associate's Degree in Computer Science** - Universidad Politécnica Territorial *(Venezuela)* - **(2018 - 2020)**

• **Electronic Engineering** - Universidad Jose Antoio Paez *(Venezuela)* - **(2016 - 2018)**

• **Udemy - Academind** - Flutter & Dart: The Complete Guide [2021 Edition]

  - State management solutions, handling and validating user inputs, connecting to backend servers by sending HTTP requests, authentication, Google Maps, animations, push notifications, How to publish you app to the App Stores.

## Courses

· The Complete 2021 Flutter Development Bootcamp with Dart.
· Flutter & Dart - The Complete Guide [2021 Edition].
· iOS & Swift - The Complete iOS App Development Bootcamp.
· Software Architecture: Domain-Driven Design by Allen Holub at LinkedIn Learning.
· Strategic Thinking by Dorie Clark at LinkedIn Learning.
· Software Architecture: Breaking a Monolith into Microservices by Daniel Khan.
· Scrum Professional Course at Platzi.
· Object Oriented Programming (OOP) at Platzi.
· Frontend Development Course at Platzi.
· ECMAScript 6+ Course at Platzi.

## Languages

• **English** ( B2 )          • **Spanish** ( Native )
